CLASS V

SUBJECT:- ENGLISH

Q1 Read the passage and answer the following questions:-

Humming birds are the smallest birds in the world, a little bigger than the bees. They make a buzzing noise when they fly because they beat their wings too fast up to 80 times a second. They can stay in one spot in the middle of the air like a helicopter. Sometimes they fly or hover upside down. They are the only birds that fly backwards. They use cobwebs and bit of bark to make their nests. Their nests are only an inch in size. Their eggs are smaller than peas. Their favourite food is nectar of flowers. They flick their tongues in and out of their mouths while inside the flowers. They lap up the nectar and it gives them energy to fly. They help in pollination of flowers.

Answer the questions:-

- [a] Why have humming birds been given this name?
