Q1- Read the passage carefully and answer the questions given below: -

Oils play a very important part in our lives. We can rub oil on skin and hair when it is too dry. We use oil in bicycles to make them run better. There are different types of oils and these are got from different origins. The different types of oils are animal, vegetable and mineral. A great quantity of animal oil comes from whales. The whales are the biggest living animals of the world. The whales have a thick covering of fat called blubber which help them to protect from cold Arctic waters. Vegetable oil is used for cooking. Perfumes are made from oils of certain flowers. Soaps are made from vegetable and animals oils. The most important oil is mineral oil which is used for cars, aeroplanes, tanks etc. This oil has changed man's life on earth. It is believed that mineral come from under the surface of the earth where many sea animals got imprisoned. It is so believed because most of the oil producing countries are situated near the sea coast.
