**Q1) Read the passage carefully and answer the questions given below:-**

When you walk on a sandy beach, you leave your footprints behind you. The waves of the sea come and wash them away. When you walk in the desert again, you leave your footprints behind you. The wind soon blows your footprints away. But , if you leave your footprints on the moon, they will stay there forever. The moon has no air or water and so , no wind .The footprints of the first people on the moon are still there today .The moon is Earth’s largest natural satellite .The moon is about a quarter the size of the earth.

On 20 July,1969, Neil Armstrong and Buzz Aldrin were the first two men who get off their spaceship and stepped on the moon. They started to walk. They were wearing heavy spacesuits but could walk and jump easily .This was because everything was lighter on the moon. Armstrong and Aldrin spent three hours on the moon, but their footprints remained there forever.

See the pretty snowflakes  
Falling from the sky.  
On the walk and housetop  
Soft and thick they lie.

On the window hedges  
On the branches bare  
Now how fast they gather,  
Filling all the air.

Look into the garden,  
Where the grass was green;  
Covered by the snowflakes,  
Not a blade is seen.

Now the bare black bushes,  
All look soft and white .  
Every twig is laden
