

# **DELHI PUBLIC SCHOOL JAMMU**

**Session :2024-25**

## **Assignment (January)**

**CLASS: V**

**SUBJECT: EVS**

**TOPICS: 1.Fuels For Vehicles  
2. Food And Digestion**

**I. READ THE FOLLOWING PASSAGE AND ANSWER THE QUESTIONS:**

**Petroleum is a dark-coloured, thick crude oil. In Greek, 'petra' means 'rocks' and oleum means oil'. So, the word ' petroleum' means 'oil from rocks.Petroleum was formed when small plants and animals got buried under the sea. millions of years ago. Due to high pressure and temperature, their bodies were slowly converted into petroleum.**

**Petroleum is obtained by drilling holes called oil wells into the Earth's crust. The petroleum so obtained is taken to an oil refinery. Here, from crude petroleum, products such as petrol, kerosene, diesel, fuel oil and fuel gas, are obtained.**

1. Petroleum is obtained by drilling holes called
  - a) oil tanks
  - b) oil wells
  - c) oil refineries
  
2. Petroleum is a dark coloured, thick \_\_\_\_\_oil.
  - a) sediment
  - b) crude
  - c) blue
  
3. It means oil from rocks.
  - a) charcoal
  - b) petroleum
  - c) none
  
4. We get it from crude petroleum
  - a) diesel
  - b) kerosene
  - c) both a& b

**II .Give one word answer :**

1. It converts starch into sugar
2. The food we eat daily
3. A sedimentary rock formed from the remains of the plants.
4. It makes our bones and muscles strong
5. A natural resource.
6. The full form of CNG.
7. An alternative source of energy.
8. A petroleum product.
9. It carries food from mouth to stomach .
10. A non-renewable source of energy.

**III. Answer the following questions:**

1. List two uses of coal.
2. List three ways to conserve fuels.
3. What is a balanced diet?
4. How is coal formed in nature ?
5. What happens to the food in our mouth ?

**IV. Draw a neat and well labelled diagram of the human digestive system.**
