Section - D

VI. Read the Paragraph and answer the following questions :

Pollution happens when air, water, or land becomes dirty because of harmful things like smoke, plastic, and chemicals. There are different types of pollution, such as air pollution from cars and factories, water pollution from waste and garbage, and land pollution from plastic and litter. Pollution is bad for people, animals, and nature. It can make us sick and harm plants and animals. We can help reduce pollution by keeping our surroundings clean, using less plastic, planting trees, and not wasting water.

Q1. What is pollution?

Q2. What are the different types of pollution?

Q3. How does water pollution happen?

Q4. How can we reduce pollution?

VII. Value based Question-

1. Aman wants to visit his friend Rohan, who lives in same colony. Which means of transport should he use? Why should he use this mode of transport?
