

DELHI PUBLIC SCHOOL JAMMU

Session :2024-25

Assignment -August

CLASS: III

Subject:EVS

TOPIC: Water And Us

I. READ THE FOLLOWING PASSAGE AND ANSWER THE QUESTIONS:

Besides food and air, we need water to live. . It is essential for our growth. We use water for different purposes in our daily lives. Water has no colour, smell and taste. It gets its colour and taste from whatever we add to it- sugar, turmeric , squash. Water has no shape . It takes the shape of the vessel into which it is put. We get drinking water through taps. Before it reaches our homes , it is purified in big machines called **Water Treatment Plant** . After purification , water is collected in big tanks called **Reservoirs**. From these Reservoirs, it reaches our home through big pipes. And in every home , these big pipes are connected to the taps .Dirty water has germs in it . The germs cause diseases like jaundice and typhoid. We should drink clean drinking water. We can clean water by boiling, filtering.

1. It keeps us healthy.
