**SESSION: 2024-2025**

**REVISION SHEET**

**CLASS: IV**

**SUBJECT: ENGLISH**

**Section A- Reading**

**Q1. Read the passage given below and answer the following questions.**

Food can maintain and save life. It can destroy life as well. Proper food serves as medicine, improper food works as poison. A little care about the quality and quantity of food will keep us healthy and happy. If we go about eating all sorts of things, we shall become sick. We take pride in calling ourselves civilized. Being sensible means to know the difference between good and bad, right and wrong. It will not do to become slaves to our tongue or taste. Even cattle, birds and beasts eat only what is best for their body. We mostly eat processed food and refined sugar. We pay heavily for junk food, for Chinese dishes or deep-fried snacks. As a result, we catch diseases. We have drifted away from mother nature. We laugh at the rules of hygiene, healthy diet and the advice of our elders. This has given rise to diabetes. We offer chocolates, cakes and ice creams too often to our children. We also attend parties or dine out every day. This way we invite obesity and diabetes.

**Q2. Read the poem given below and answer the questions.**

In the forest, tall and grand,  
Where ancient trees forever stand,  
Whispers of the wind so light,  
Guiding creatures through the night.

Beneath the moon's soft, silver glow,  
A river's gentle waters flow,  
Reflecting stars above so bright,  
Creating a tranquil sight

Morning breaks, the sun's first rays,  
Paint the sky in golden blaze,  
Awakening the world from dreams,  
With nature's symphony, it seems.
