

DELHI PUBLIC SCHOOL, JAMMU

SESSION [2019-20]

REVISION SHEET FOR CYCLE TEST-II

CLASS-VII

SUBJECT: GEOGRAPHY

TOPICS: 1. Air composition and structure.

2. Water and its circulations

GENERAL INSTRUCTIONS:

1) *The Revision sheet is divided into three sections*

2) *All questions are compulsory.*

3) *Q1 to Q7 carry 1 mark each.*

4) *Q8 to Q10 carry 3 marks each.*

5) *Q11 to Q12 carry 5 marks each.*

SECTION-A

VERY SHORT ANSWER QUESTIONS

1. World Water day is celebrated on
 - A. March 22
 - B. March 10
 - C. May 22
 - D. April 20
2. Mixture of several gases form our
 - A. Atmosphere
 - B. Surface
 - C. Thermosphere
 - D. Temperature
3. Rise and fall of water in the ocean is termed as
 - A. Wide
 - B. Tide
 - C. Stride
 - D. Wave
4. Meteors get burned in _____
5. What do you mean by the term Humidity.
6. What is Normal Lapse Rate.
or
Define Mesosphere.
7. Find the incorrect option
 - A. Exosphere is uppermost layer.
 - B. The temperature of exosphere is very high.
 - C. Exosphere merges with inter-planetary space.
 - D. Ozone layer is present in Exosphere.

SECTION-B

SHORT ANSWER TYPE QUESTIONS

8. Distinguish between Troposphere and Stratosphere.

9. Write a short note on Tsunami 2004.

10. Read the source given below and answer the questions that follows.

Atmosphere is the blanket of air which surrounds the Earth. Mixture of several gases form our atmosphere. There are also pollen grains, water vapours, dust particles, and impurities like salts, smoke and several other chemical in different quantities. The main gases which constitute are nitrogen(78 percent) and oxygen(21 percent). The remaining 1 percent consists of gases like argon, hydrogen, helium, ozone and carbon dioxide.

1. How much percent of oxygen present in the atmosphere.

2. What is atmosphere.

3. Name two main gases which constitute our atmosphere.

SECTION-C

LONG ANSWER TYPE QUESTIONS

11. What are tides and write down its two advantages?

12. Describe the structure of atmosphere in detail.
