SECTION-B

SHORT ANSWER TYPE QUESTIONS

- Q6. Write a short note on Population Composition.
- Q7. Discuss the conditions required for the Cultivation of Tea.
- Q8. **Read the passage and answer the questions that follow.**

Nomadic herding is the most common type of herding practised by nomads, which wander from place to place in search of pastures and water for their animals. The main areas where nomadic herding is practised are arid regions of Sahara, central asia and several parts of India. Nomadic herders carry their belongings such as utensils, bedding and tents on the back of donkeys, horses and camels. Nomadic tribes earn money by selling the products made of skin, hair and bones of the animals. They rear animals like camels, sheep and goats.

- (a) In which areas is Nomadic herding practised?
- (b) Name any two animals used to carry materials from one place to another.
- (c) What do you understand by Nomads?

SECTION-C

LONG ANSWER TYPE QUESTIONS

- Q9. Explain the different layers of Soil profile with the help of a diagram.
- Q10. Compare an average farm of India and the USA.
