**Q.1 Read the passage and answer the following questions:-**

The Earth is the planet on which we live. It is also known as the blue planet. The first thing that stands out is its blue colour. It is the only planet where water exists in liquid form. The Earth's atmosphere consists of nitrogen, oxygen and other gases.

The Earth is a very active planet. The Earth's crust is divided into great plates which are pushed by slow currents. When the plates in the other regions of the Earth collide, they cause earthquake. The Earth is not an isolated planet. It has a natural satellite, known as the Moon. The other solar body very close to the Earth is planet Mars.

The Mars is also known as the Red planet. It has no life. There are big mountains on the surface of Mars; Mount Olympus is the highest mountain on the Mars. It has two satellites, Phobos and Deimos. Mars has a very thin atmosphere composed of carbon dioxide.

**a) Answer these questions:-**

- i) What is the other name used for our Earth?
- ii) Name the gases, the Earth's atmosphere consists of?
- iii) Which is the highest mountain on the Mars?
- iv) Name two satellites of Mars?

**Q12 Read the passage and answer the following questions:-**

As time went by, people started dying of hunger. But the Raja would not give a single grain of rice .

One day the Raja ordered a feast for himself and his courtiers. It seemed to him , a Raja should indulge in merrymaking now and then, even when the famine had left the people with no food to eat. A servant led an elephant from a royal store house to the palace , carrying large sacks of rice.

- i) Why did people start to die?
- ii) What was the servant carrying to the palace?
- iii) State true or false:-

The Raja ordered a feast for all the farmers. \_\_\_\_
