Save Soil is a global movement launched by the Indian spiritual leader Sadhguru to address land degradation and advocate for healthy soil. The initiative was presented on 5 April 2022 at the United Nations in Geneva by the Isha Foundation and supported by the WHO, UN SDG lab, IUCN, and India's foreign ministry. Let us join the global movement as Earth Buddies, and commit ourselves to saving the Soil. For further information click on: <https://www.consciousplanet.org/action-now>
