REVISION SHEET FOR HALF YEARLY EXAM
SESSION 2018-19

Class: VI

Subject: English

Section-A (Reading)

Q1. Read the passage and answer the questions that follow :-

Have you ever walked through cloud of gnats on a hot summer, only to have them follow you? No matter how you swat at them, or even if you run, they won't leave you alone. If so, then you have something in common with an atom. Atoms are the building blocks of molecules, which when combined, make up everything. Technically we can't see individual atoms, since there are no microscopes powerful enough. Even though scientists cannot see atoms with microscopes, then have developed ways to detect them and learn about them. Atoms are made up of three basic parts; protons, neutrons and electrons. The study of atoms and tiny particles that are even smaller is called quantum mechanics. Scientists still have much to learn about atoms.

A. Tick the most appropriate options:-

(a) Atoms are:

- (i) cloud of gnats
- (ii) building blocks of molecules
- (iii) tiny Particles
- (iv) none of the above.

(b) Study of atoms is called:

- (i) electrons
- (ii) Physics
- (iii) quantum mechanics
- (iv) all the Above

B. Complete the sentences:-

- (i) Study of atoms is called _____
- (ii) Protons are one of the _____ of Atoms.

C. Answer the following question in 15 to 20 words.

- (i) Why it is not possible to see individual atoms?

Q2:- Read the passage given below and answer the questions that follow:-

What Australian mammal can leap 25 feet in one hop and move for short periods at 35 miles an hour? The red kangaroo. A full grown male stands as tall as foot person and weighs 200 pounds. This is slightly bigger than the grey kangaroo, making it the world's largest marsupial. A mammal where the mother has a pouch for carrying, feeding and protecting her young, is marsupial.

While a red kangaroo may be the largest marsupial, the newborn baby is tiny, under an inch long. After a few months of sleeping, nursing and growing in mom's stomach pouch the young kangaroo (joey) begins to come out. But it hurries back to the pouch fast when frightened, hungry or cold. Eventually, the joey gets so big it hangs out of the pouch. Then, at eight months old, it stays out. But the joey remains close to mom until ready to live on its own.

Red kangaroos are good swimmers . However, they are best known for their hopping abilities. Their long, powerful hind legs have big feet. Hopping moves them quickly over their grassy, shrubby and desert habitats. Meanwhile, a thick tail helps them balance and steer.

Red kangaroos eat grass, leaves and other vegetation. And guess what- they often regurgitate food and chew their cud just like a cow.

The red kangaroo's vegetarian diet provides much of its water. It can also go long periods without drinking. Staying in the shade, panting and limiting most activity to night time helps the red kangaroo conserve water and stay cool.

A. Tick the most appropriate options:-

(a) Red Kangaroos are:

- (i) mammal
- (ii) world's largest marsupial
- (iii) herbivores
- (iv) all of the above.

(b) Study of atoms is called:

- (i) electrons
- (ii) Physics
- (iii) quantum mechanics
- (iv) all the Above

B. Complete the sentences:-

- (i) A baby kangaroo is called a _____.
- (ii) Red kangaroos, after eating _____.

C. Answer the following question in 15 to 20 words.

- (i) When does a baby kangaroo come out of its mother's pouch for the first time?

Q3:- Read the poem given below and answer the questions that follow:

A REMARKABLE ADVENTURE

I was at my bedroom table
With a notebook open wide,
when a giant anaconda
started winding up my side,
I was filled with apprehension
and retreated down the stairs,
to be greeted at the bottom
by a dozen grizzly bears.

We tumultuously tussled
till I managed to get free,
then I saw, with trepidation,
there were tigers after me,
I could feel them growing close,
I was quivering with fear,
then I blundered into quicksand
and began to disappear.

I was rescued by an eagle
that descended from the skies
to embrace me with its talons,
to my terror and surprise,
but that raptor lost its purchase
when a blizzard made me sneeze,
and it dropped me in a thicket,
Where I battered both my knees.

I was suddenly surrounded
by a troop of savage trolls,
who maliciously informed me
they would toast me over coals,
I was lucky to elude them
when they briefly looked away--
that's the reason why my homework
isn't here with me today.

-Jack Prelutsky

A. Tick the most appropriate option:

- a) Why did the speakers retreat down the stairs?

- (i) He was afraid of the tiger.
- (ii) He wanted to see the grizzly bears.

b) What caused the speaker to stumble into the quicksand?

- (i) the tussle with the bears
- (ii) the approaching trolls
- (iii) fear of the tigers closing in
- (iv) losing track of time

B. Complete the sentence.

- i) The eagle dropped the speaker into a thicket because _____
- ii) The speaker did not bring his homework because _____

Q4. Read the poem given below and answer the questions that follow:-

The Sun descending in the West;
The evening star does shine;
The birds are silent in their nest,
And I must seek for mine.

Unseen they pour blessing
And joy without ceasing
On each bud and blossoms,
And each sleeping bosom.

The moon, like a flower
In heaven's high bower,
With silent delight
Sits and smiles on the night

They look in every thoughtless nest
Where birds are covered warm;
They visit caves of every beast
To keep them all from harm.

Farewell, green fields and happy grove,
Where flocks have took delight:
Where lambs have nibbled, silent move
The feet of angels bright

If they see any weeping
That should have been sleeping,
They pour sleep on their head,
And sit down by their bed.

A. Tick the most appropriate option:

- (a) Evening stars rises when
 - (i) The birds are silent
 - (ii) the feet of angels are bright
 - (iii) The sun descends
 - (iv) None of the above
