“Summer Vacations are starting today.

All the kids are ready to play.

Learning through play is the best way.

Children shout Hip Hip Hurray”

“Learning is a treasure that will follow its owner everywhere”

Dear Parents and Students

As the holiday season approaches, we wish you all a joyful and restful break. While this time is perfect for fun and relaxation, it is also a wonderful opportunity for our young learners to explore, discover and be productive. To ensure our little ones continue to thrive both academically and creatively during summer months, we have prepared some engaging and enjoyable activities for them.

Our goal is to integrate learning with summer experiences, reinforcing the skills they have developed while encouraging curiosity and creativity.

The activities are varied and cover all the key areas. We recommend setting aside a regular time each day for your child to work on these activities. Read them simple stories, encourage them to draw, colour and make simple craft. To enhance their life skills, involve them in simple household chores like watering plants, arranging toys or helping in the kitchen. This will make them responsible and boost to their self-esteem. Encourage them to work at their own pace and provide support when needed. Keeping them engaged in creative activities will also reduce their screen time.

We wish you an enjoyable and fun-packed summer break! Remember to keep a bowl of water for your thirsty little friends.
