MESSAGES

Dear All,

I am delighted to note that Tarini is making its 3rd big appearance. It is a matter of great joy to see pen and paper enthusiast scribble down their creative best and the budding artists pour out their heart in their sketching and drawings. Collectively, therefore, Tarini becomes a voice of our middle school children, as well as a platform for their free expression.

I congratulate all contributors and the Editorial Board 2018-19 for bringing out the school magazine Tarini.

I also wish them all the very best for all their future endeavours.

Best wishes,

Ruchi Chhabra
Principal
DPS Jammu

MESSAGE FOR MAGAZINE

Dear children,

"Focus on the journey, not the destination.
Joy is found not in finishing an activity, but
in doing it."

"**TARINI**" is a platform for you all to express your creative pursuit which helps develop in you originality of thoughts and perception. Tarini brings to you exhilarating flashback of events and achievements of the session 2018-19 along with a wide range of articles, poetry, paintings and creative thought process of our dipsites. I congratulate the editorial team for their hardwork and dedication.

Wish you all happy reading!

Love and blessings!

MESSAGE FOR MAGAZINE

This magazine serves like a year book for the students of this school. This magazine serves as a platform for the students to display their talents. It gives a window to the creative ideas, imaginations and writing skills. "TARINI" is our first contact with the world, period of joy, a healthy competition, sharing, adjusting and loving. It is in the heart of the students and mind of them, which bloom in the form of vibrant colours.

I want to congratulate all the students, who have worked hard to bring up this colourful and meaningful magazine. My best wishes to all students for future periodicals.

RAVI KOTROO
Deputy Headmaster

Tarini

I feel great pride in conveying my best wishes to Tarini, our school magazine which provides a platform to the students to share and display their ideas and creative talents. The efforts taken to bring about innovative content is truly appreciable. The magazine strives to be a showcase of original writings of children and it plays a very important role in fostering new talents in children. The school magazine is a forum for the creative minds and is an excellent opportunity to give outlet to exuberant and energetic minds of students.

My greetings to the editorial board to keep up the good work

Umesh Kumar Sharma
Chief Coordinator

MESSAGE

I am glad and proud to see the next issue of our school annual magazine **TARINI** and would like to congratulate the editorial team and all the contributors who by their contributions have made the publication of present magazine possible.

TARINI showcase the commitment of our school to the overall learning and growth of our students and to contribute to the society as a whole.

TARINI provides a wonderful platform to the students to showcase their writing talents and its heartening to see the enthusiasm amongst the students towards contributing in the present edition of **TARINI**.

I once again congratulate all the people who have tirelessly worked towards the publication of the present issue and have made all of us proud.

Mrs. Mary (Barbara)
Coordinator
(Middle Wing)

Message

"An educated man should know everything about something, and something about everything." as said by C.V. Wedgwood

"To me, the greatest pleasure of writing is not what it's about, but the inner music the words make." Truman Capote

In true agreement with the above quote, I find writing as the most valuable literary expression. The inculcation of passion for creative thinking and writing amongst the students is one of the major objectives set by Delhi Public school Jammu. 'Tarmi' has been a step forward, it and it has served as a great platform to vent out students' passion for writing and encourage original thinking within them.

It is actually a lovely experience to see these enthusiastic writers giving their feeling through stories, poems, jokes and imbibing their role through various eye opening discussions.

The publication of the school magazine included a lot of planning compounded with hard work.

Finally, from the entire team of 'Tarmi', I wish all the readers a happy reading!

Message for magazine

We are very thankful to God to make us a part of DPS family .Being the creative editor of session 2018-19, we have learnt a lot of things like how to work in a team .We also have learn how to cope up with flaws . This post has given us an opportunity to learn how to rise up and become impeccable . This family is very lovely and has been one of its own kind. I think being a part of this school cabinet has been a great boon for us . Talking about the making of magazine , it had been a great time we have spent in the formation of the Magazine . This journey of ours has been very nice and melodious . at last I would like to thank Mr. Raghuraj Sir, and all other teachers and calligraphists who helped us by giving their valuable time in making of this Magazine.

WHERE WORLD BLOOMS II

My world of dreams

Where no one screams

There is joy all around.

And happiness knows no bound

where there is no sorrow.

Every today and tomorrow

Like those of a nightingale's.

polite, loving words prevail.

where truth is in everyone's eyes

and nobody tells lies.

Everyday here is kind

Nobody is dumb or blind.

In every corners are blooming flowers

Everywhere God's blessing shower

No lack, even of water

Every face is full of laughter.

Every colour here is spread -
orange, yellow and lovely red

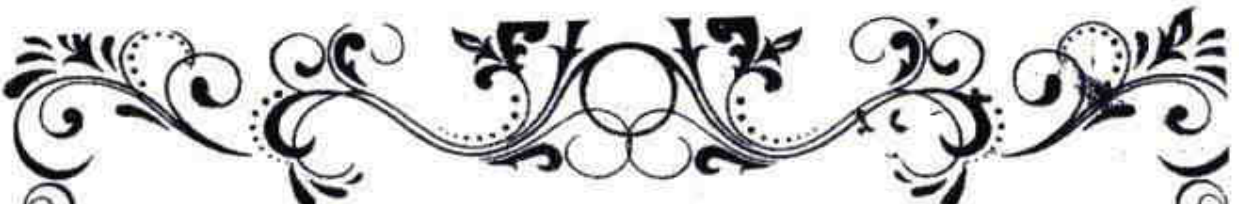

Every desire reaches its destination
with joy and fascination

Illness would bloom like a bliss.

And peace pervades with a gentle kiss.

IT IS UP TO YOU

One song can spark a moment

One flower can make the dream

One tree can start a forest

One bird can herald spring

One smile can begin friendship

One star can guide a ship at sea

One note can change the nation

One seed can frame the goal

One sun beam lights a room

One candle wipes out darkness.

One laugh can conquer gloom.

One step can start a journey.

One voice can speak with wisdom.

One life can make a difference.

You see....

It's all upto you!!

MOTHER'S LOVE

God is only one,
who made the galaxies, planet and the sun.
He could not reach in everywhere,
to help the children in different spheres.
That's why, he created mothers,
with a voice as soft as feathers.
A mother whose heart is pure,
and her love for children is more.
No love can match that of mother.
Be it a father, friends or brother.
Her love is unconditional and endless.
That overlooks our mistakes
and has no ending.

O my mother, you are very kind and
loving,

Quite equal to God who keeps
the universe moving

Let me thank God for giving 'You'

But he is being unfair for dividing

My love between the you 'Two' ?

Exam Fear

My exams were ~~was~~ near

And I was full of fear

I studied till late night

For my answers to be right

I was frightened like ever

Because I ~~was~~ know I wasn't clever

If I would not pass

I would be in the same class

The next day was creepy

My eyes started blinking

When my mind started thinking

Exams shaved a way

When I became a pray, for fear

A MIND RARE TO FIND

A mind rare to find

She makes learning a joy,

Our crazy actions make her annoy.

Her heavenly smile can work wonders,

She helps us derive lessons from

blunders.

A charming mother for little minds

And a superb soul rare to find.

Her tender hug is a sublime bliss

Once felt you won't wish to miss.

Her solicitous face is a beauty to

behold.

She is adept in the game of mind
assault.

Her affection and care lend her a
perfect - edge.

Nurturing young minds is her pledge.

Her zesty scolding is what we love
she is agile yet winsome like a dove.

CRICKET

Cricketer 'O' Cricket I love to play cricket

In this we have to take a wicket

But it is not easy to take wicket as

If you get a duck don't be happy,
it's a bad luck!

Every player wishes either to hit
boundary or to get six.

If you catch a ball, in front of all.

If you can sweep and catch the ball,

You will get cheers from all!

"Stopping Pollution"

The sun is shining,

The sky is blue,

The birds are flying,

And the breeze is so cool.

To give nothing but beautifulness

But what do we do?

Make her a mess.

Let's make her the best

By polluting less and less,

And preserve her green dress.

MOTHER

Your Mother is always with you...

Your Mother is always with you...

She's the whisper of the leaves.

As you walk down the street.

She's the smell of the bleach,

in your freshly laundered socks.

She's the cool hand on your brow

When you are not well.

Your Mother lives inside your laughter.

She's crystallized in every tear drop.

She's the place where you come from.

Your first home.

She's the map you follow

with every step that you take

She's your first love

And your first love break....

And nothing on earth can separate you

Not time, not space

Not even death....

Will ever separate you

from your mother....

You carry her inside of you.

'A Tribute to the Teacher'

You make us travel to the distant land

~~Take~~ clutch onto you, you hold our hand

You make our life so very bright with

Knowledge, wisdom, truth and light.

You make us smile, you make us frown,

You lift us up when we fall down.

Your eyes are warm and never cold.

Sometimes you pamper, sometimes you scold.

Every word of yours has a tinge of gold.

And many mysteries you unfold

You shape our talent in so many ways,

Oh Teacher! What can I say in your praise?

For all that we know, you are the reason

Every moment with you is like the spring season.

On this special 'Teacher's day',

All that I want to say,

"A mother gives life to a child,

But teacher, dear teacher, you are the one who
makes it worthwhile.

For everyday of your life, we pray,

May it be your day, our 'Teacher's day'!!!

PARENTS

The God has given us so many gifts that all are essential for us such as air, water, nature. But there is a thing that plays a crucial role in our life. That supports us, encourage and give the power to fight against the problems that is our parents that take all the difficulty on them to give us a better life. They fight for us and do so many things in our life that we all cannot think about. They do so much hard work for us to provide us better education. Father never

expresses his feelings and kept it in
his heart and he never tries to feel
us that he loves us but the mother
is like a God that kept us in her
womb for nine months and face all
the difficult for us. She express her
feelings that she loves us. We
cannot pay the price that our
parents had spent on us from our
childhood to till now but we can
felt them happy by achieving goal
in our life and feel them proud.
So, we should give them proud so, we

should give them respect and obey
their orders it is true that God
cannot be present everywhere so
he made mother but today the
adults that get married let their
parents alone and do not care
for them and forget all the efforts
they had made for him we
should make them to feel sad as
they are the ones who tells us the
way where we have to go.

Friendship...

* Friendship is not a two way road,
it is one way road, travelled by two
people in hand.

* Friends like us have to stick together.

* Good friends make all the difference.

* A friend is someone who
support you all the time.

* A friend is someone who does not
complete with time.

* A friend is someone who understands

whatever you do.

* A friend is someone who tells you the truth you yourself.

* A friend is someone to call upon during good/bad times.

WATER AS A MONSTER

A well preserved and repeated topic of discussion is water pollution, but today we're not discussing that. This is one of the newly entered demons of human kind — 'landless' land. Now, it doesn't mean soil 'pollution', but rather 'soil depletion'. It's not about running out of 'land', but running out of 'soil'. This epidemic started way back, but the dinosaurs didn't care about it. We are the ones who must've cared. We could have saved the Earth! Unfortunately, we can't do much now.

Rainfall, many-a-times wears out land surface i.e. fertile topsoil and floods and tsunamis take out whatever's left. Due to this, most of the world's topsoil is ending up in the seas. So much so, that; this has caused many scientists to try to find ways to do agriculture underwater. If this keeps going on, then one day, the statement I said at the start would get the opportunity to become a fact i.e. landless land.

helps to stay focused.
~~It's about the process.~~

A good start someone may find this by not
working or least interesting, but trust me this topic
will change your life. I would love to tell you
my own story. 2 to 3 years before I loved
dancing but I have to do studies as well.
So I continued tripping with my studies obviously.
But then I realised that multi-tasking doesn't
work. We cannot say that it is totally useless
but it just makes your main ambition
disturbed. Conversely, failure to concentrate
can be very unproductive. Trust me I'm
the one who experienced it. Not once many
times I was holding a glass of milk and

are more hard hitting to my friend or the
and then I split the wide glass of milk
into my love drinking of phone and drinking
the phone like milk anyway, so tell us
to our love. But yes, I know that some of
them are contradictory, that's the "spectrum".

- Don't accept your distractions. You do get
distracted. Your mind will wander. You will
want to get started the day I to stand
back from yourself. Notice the distractions.
Allow us to monitor gently remind yourself
that you're using it occasionally and it
will be easier to return your focus to
you again.

o Go somewhere else: Do you write a bit more
neatly when you get a new pen? Change can
be beneficial, even if the effect is temporary.

Sometimes a change of location (go to the park,
STARBUCKS, kitchen - anywhere but here).

o Rock and River: Water is soft and rocks are
hard but a river can defeat a rock with
patience and constant efforts over time. I think
it's the same with writing. A little every day
beats a lot once a year. If you keep this in
mind, concentrating for a short period every day
becomes easier.

Morning pages: I have to admit that I haven't
tried it but other people including my friends.

swear it my first thing every day. Last but
not the least, one of my favourites!

Read or study in installments: you know
what, the best way to memorize anything is
to read and then stop for eg. if you study
for 20 min. stop for 5 more minutes and then
start studying again for 20 mins. but remember
don't touch your phone. Don't use social media.

Because the scientist of ~~Stanford~~ Stanford Univer.
proved that if you've memorized something
by using social media you are messing up all.
You'll forget. Trust And by the way for more tips &

books there is a great book for you. 'EAT THAT FROG'

THE SWEETER APPLE.

Once upon a time a child had
two apples in her hand. Her
mother came & ask her to give
her one of the two apple. She
litted one apple & her mother
ask her to give her another
then the child litted another
apple. Her mother got angry &

The sun is made up of many gases.

The rings of Uranus, Jupiter and
Neptune have rings around them.

The rings of the saturn are made
up of dust particles, rocks and ice.

The Pole star is also known as the
North star.

Jupiter has the maximum number
of moons.

Uranus was the first planet which was discovered by a telescope.

The sun is 152 million kilometers away from earth.

The average temperature on Neptune is about -225°C and on Mercury, the temperature goes above 400°C .

On 21 July 1969, Neil Armstrong became the first person to walk on Moon.

The star nearest to the sun is Proxima Centauri. It is 40 trillion away from earth.

The diameter of moon is $\frac{1}{4}$ of the Earth.

A day in Jupiter is of 9 hrs 55 min.

DISCIPLINE

The call to follow a direction
where few would go by choice
to have a chance at something
where all will hear your voice.

Is not without some sacrifice
or trade of sweat and toil
Will you do what's needed

If we are to reach our goal:

It's holding to a pattern
that leads to dreams of change
where thoughts and also actions

together. ~~revenge~~

Some go in search of discipline.

Others it will find.

And being changes fourth with actions
that first start in the wind.

MESSAGE To MY MOTHER

If I was the star

then you were the shine,

If I was the ocean

then you were the shore,

If I was the night

then you were the morning,

If there was a tear in my eye,

then there was a fear in your heart,

For you my mother,

I can set the world on fire

I can even kill all my desire.

For you my beloved

I can do pieces of my heart

इक कब्र

इक कब्र में रहता हूँ - - !

इस कब्र की आते हैं,

इस कब्र में जो कुछ भी,

ला कर फूनावा हूँ,

ये हज्ज तो करती हैं,

मुँह बूढ़ नहीं करती,

छः फुट से जरा कम हूँ,

कितना कुछ फूनाया,

फरती ही नहीं कमबख्त ।

जिस कब्र में रहता हूँ !!

चाँदूँ समान

शेज आता है जो ये बल्किया, एक रूप बदल कर,
शेत के वक्त दिखाता है, कलथी अपनी,
और लुभा नेता है मामूम से लोगी को अढ़ा से।

पूरा दरजाई है, गलियों से गुजरता है, कभी
घत से, बजाता हुआ सीटी

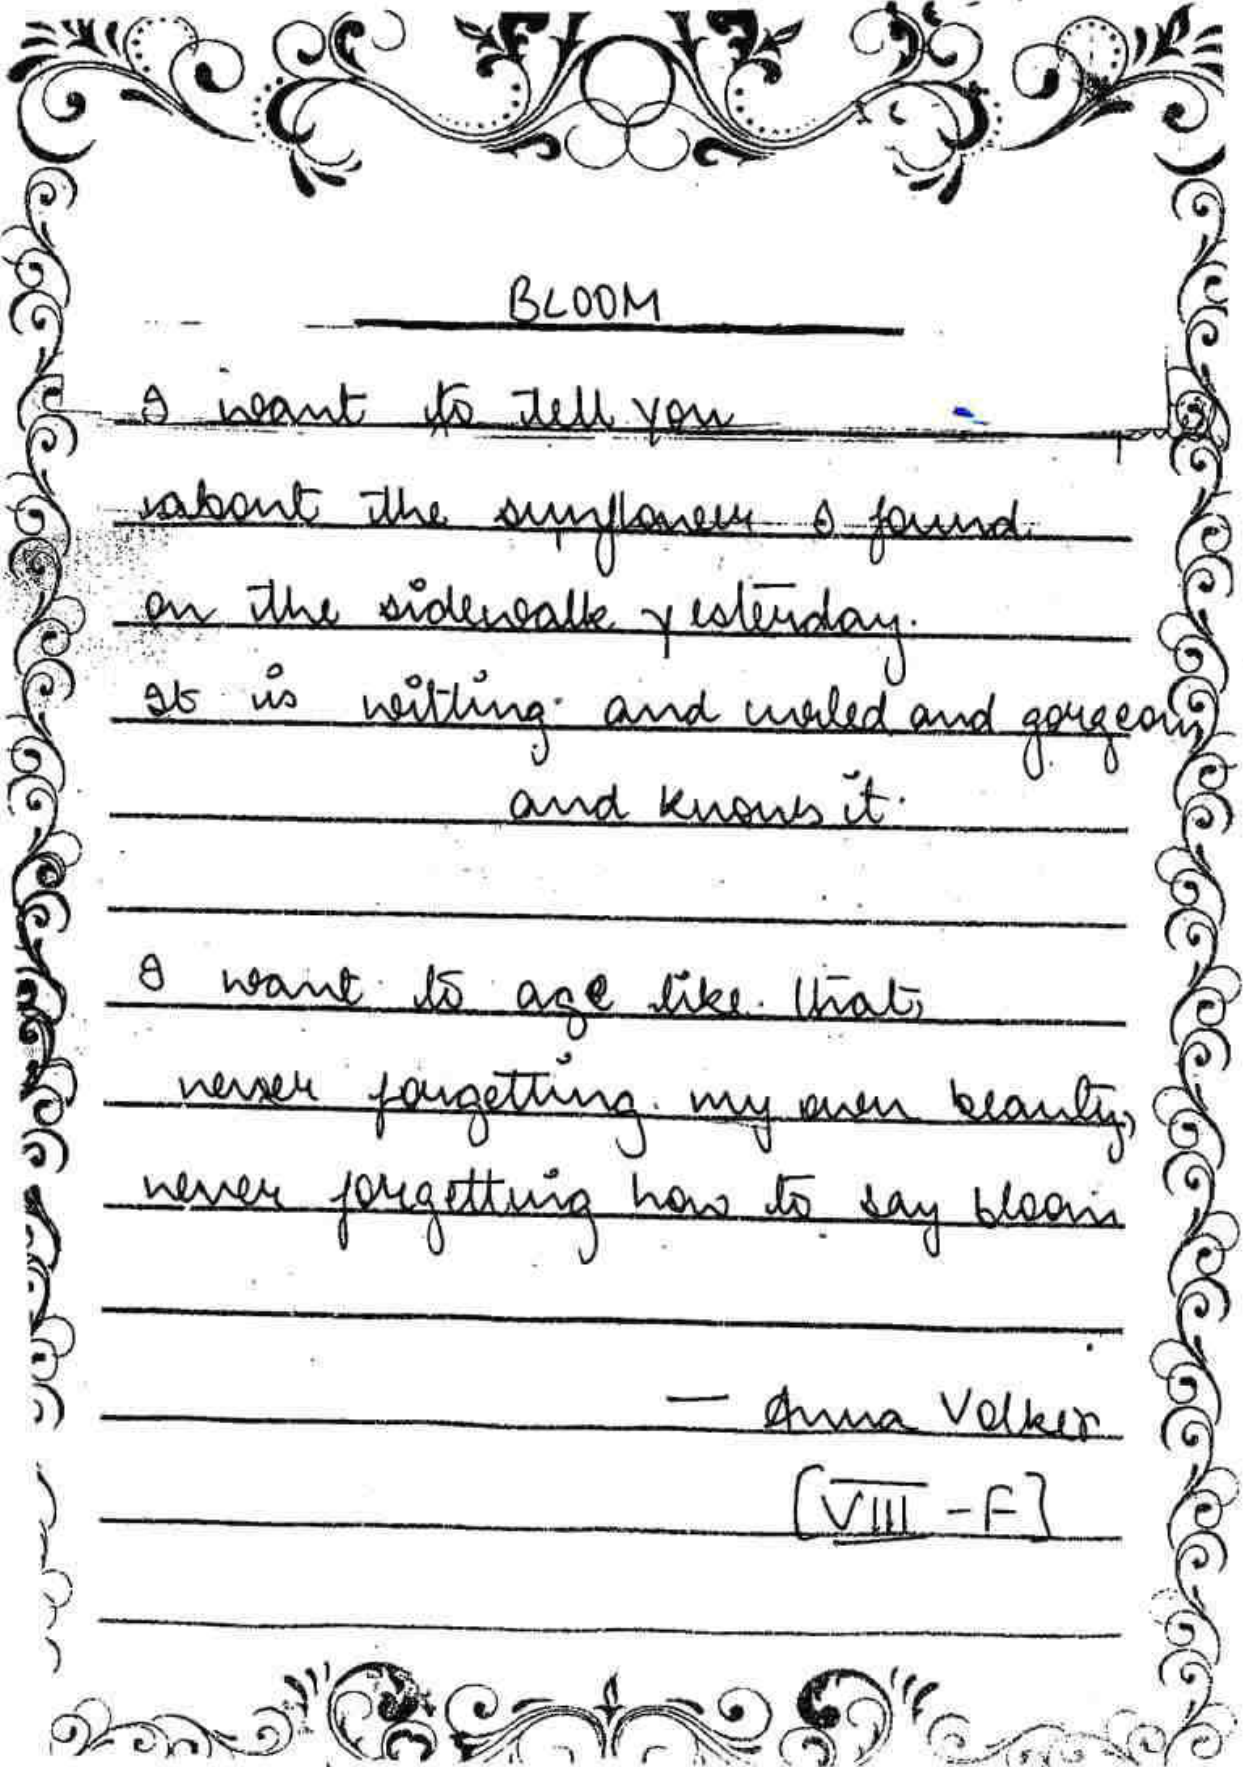

शेज आता है जगाता है, बहुत लोगी की शब मर।

आज की शेत उफुक से कोई,

चाँदूँ निकलते तो गिरफ्तार ही कर लो ॥

BLOOM

I want to tell you
about the sunflower I found
on the sidewalk yesterday.
It is witting and wiled and gorgeous
and knows it.

I want to age like that,
never forgetting my own beauty,
never forgetting how to say bliss.

एक और दिन !!!

दिन का कीकर काट के कुल्हाड़ी से

रात का ईंधन जमा किया है !

सीली लकड़ी, कड़वे घुंर से

चूल्हे की कुछ सांस चली है !

पेट पे रखी, चाँद की चकी,

सारी रात मैं पीसूंगा

सारी रात उड़ेगा फिर आकाश का चूरा !

सुबह फिर जंगल में जाकर

सूरज काट के लाना होगा !!

सीना

जरा आवाज़ का लहजा ती बदलो ---

जरा मद्दिस करी इस आँच को सीना

कि जल जाते हैं कुँगुरे नमी रिशतों के।

जरा अलफाज़ के नासुन-तराशी,

बहुत चुभते हैं जब नाराज़गी से बात करती है !!

कायनात

बस चन्दु करौड़ी सालों में

सूरज की आग बुझैगी जब

और शख उड़ेगी सूरज से

जब कोई चाँदु न इबैगा

और कोई जमीं न उभरेगी

तब ठंडा बुझा इक कोयल सा

दुकड़ा ये जमीं का घूमेगा

भटका भटका

मदघम अकिसत्री रोशनी में।

मैं सोचता हूँ उस वक्त अगर

कागज़ पे लिखी इक नज़म कहीं उड़ते उड़ते

सूरज में गिरे

ती सूरज फिर से जलने लगीं !!

पड़ोसी

आँगन के आदतें में, रातों पे लोंकपड़े

अफसाना सुनाते हैं, छेदवाल बताते हैं

कुछ रोज़ खोई के, साँ-बाप के घर रहकर

फिर मैं पड़ोसी की बीवी लौट आई हूँ।

दो चार दिनों में फिर, पहलने सी फिजा होगी

आकाश भरा होगा, और रात को आँगन से

कुछ "कामेट" गुजरेंगी!

कुछ तशतरियाँ उड़ेंगी!

भ्रष्टाचार

भ्रष्टाचार, भ्रष्टाचार

दुनिया में चल रहा है इसका प्रचार

बेकसूरी को मिलती है सजा

भ्रष्टाचारी करते हैं मजा

कुछ लोग होते हैं जो

देश को खोखला कर रहे हैं।

भारत में भ्रष्टाचार का पौधा लगाकर

देश को पतन के राह पर ले जा रहे हैं।

अब समझ आ गया है,

अब भ्रष्टाचार के पाप का घड़ा भर चुका है।

हमें अब लोगों को जगाना होगा,

वह दिन जल्द ही आएगा ।

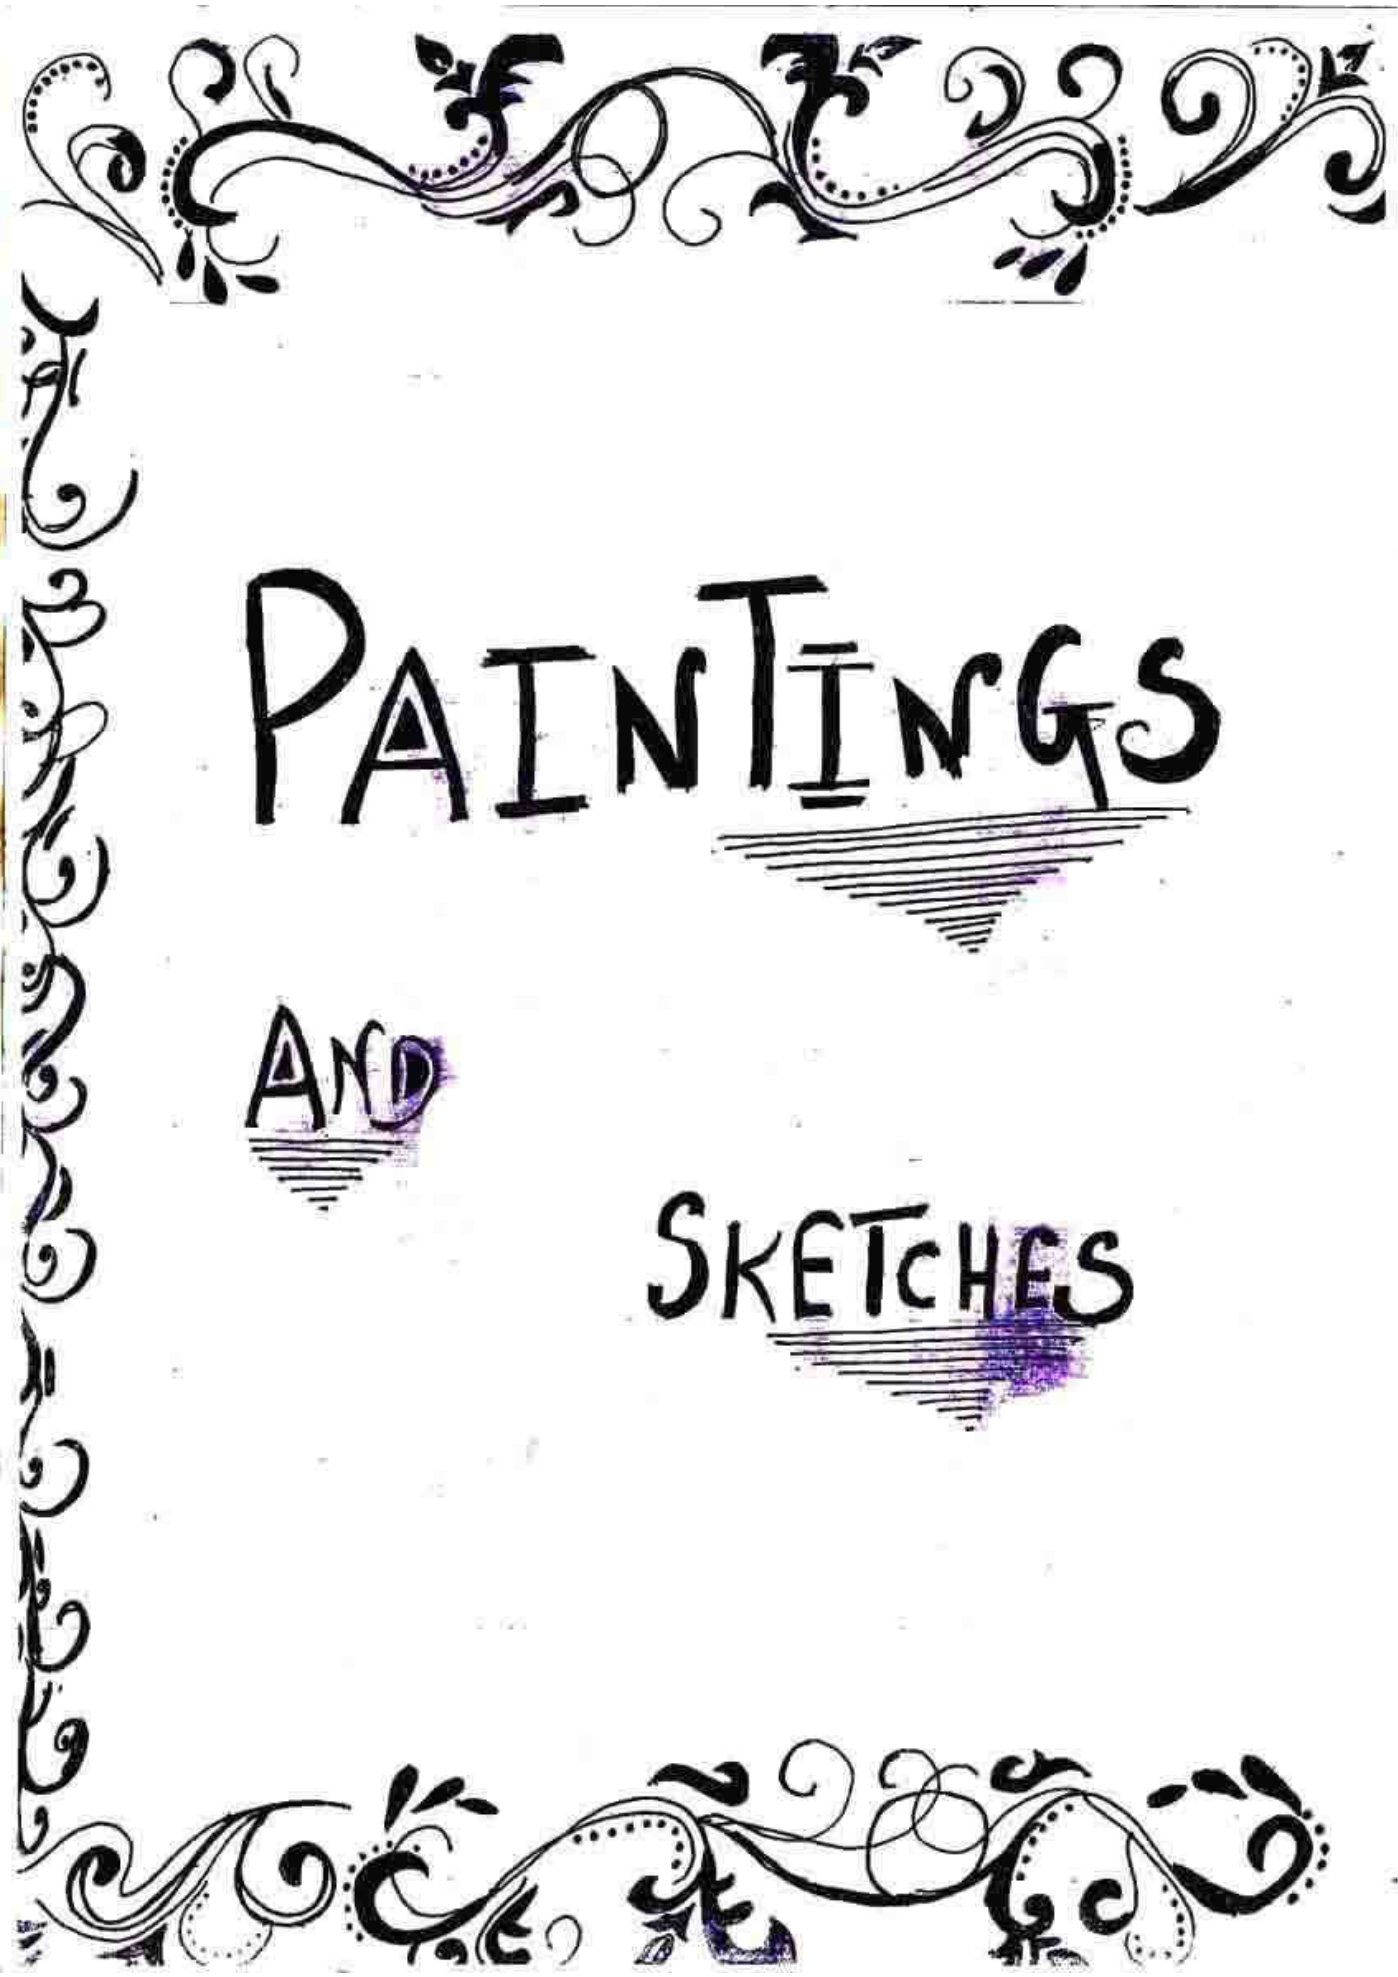

जब भ्रष्टाचार समाप्त हो जाएगा ।

अशियाँ हम मनाएँगी ।

देश में समृद्धि फैलाएँगी ।
